The Territory of Hawaii yesterday recovered a judgment for \$2767.85, the some time ago of the defalcation.

The suit was entitled C. S. Holloway, tail as Superintendent of Public Works v. E. V. Richardson, David Kawananakoa, J. F. Colburn, Cecil Brown and the Henry Waterhouse Trust Company, administrator with the will annexed of the estate of W. H. Cornwell, deceased.

The suit was on the bond of Richardson and was on trial before Judge De Bolt, jury waived. It was prosecuted on behalf of the Territory by Deputy Attorney General Prosser, and was defended by A. G. M. Robertson and C. W. Ashford.

Judge De Bolt rendered his decision. An appeal to the Supreme Court was

### DEFENDANT WINS.

Judge De Bolt yesterday rendered judgment for the defendant in the case of Lum Sow Sin et al. against Wong Kun Yee et al., Chung Sun and Lum Kwai, garnishees. The suit was on appeal from the district Court and the amount involved was \$139.50.

# ATKINSON

(Continued from Page One).

an address before laying down his of fice, but it is quite probable that Governor Frear's inaugural address will be very brief. If department heads are not announced before that time, it is probable that they will be at that time. The official announcement of who will be Secretary of the Territory will, in or Oyster Bay, though there is no doubt but that it will be E. A. Mott-

Of the three years and a half that A. L. C. Atkinson has been Secretary of the Territory, he has been Acting Governor at various times, in all about eighteen months. He has been much more of an initiative force and an integral part of the administration than secretaries of territories usually are. During his official career he went twice Per S. S. China, Friele, from San to New York to float bond issues, Bachelder, G. Bergren, Dr. G F. Brack-him. In connection with Treasurer bath houses. ett, Mrs. G. F. Brackett, Miss Mildred Campbell, another loan of a million Brackett, Mrs. Laura B. Corbaley, J. was floated and another time, a !can H. Hawley, Mrs. J. H. Hawley, Mrs. of \$600,000 was floated. Each of these Paul Neumann, A. C. Reinecke, T. E. loans was floated on better terms than For Yokohama: Richard M. Brady, floated, and each on better terms than the preceding one.

Throughout the administration Secretary Atkinson has been of the greatest assistance to Governor Carter, especially on the financial side. In the relations between the Executive and the legislative. Atkinson's service has been invaluable. At times when the Kaaui ports, 7 a. m .- Mr. and Mrs. rupture between the two branches seemed inevitable, Atkinson has been able to bring about not merely a modus vivendi, but an entente that enabled a sound and continuous financial policy to be maintained, and secured consideration for measures that, if a rupture had come, would have gone by the board. In loyal service to Governor Carter, perhaps his usefulness in this direction ranks highest. But his work in this direction can not be separated from that of Governor Carter.

In one particular the share of Secre-

tary Atkinson in the administration, though not wholly separable from it, as it ought not to be, nevertheless stands out clearly, stamped with his individuality and impressed with his untiring effort. That is in the work that has been done to administer the public land system of the Territory so as to make it an aid in the effort to bring good work had been done by the cirhither an immigration eligible to citizenship, to build up the citizenship of the Territory, and to develop this into an American community. In this direction Atkinson has been preeminent, and whether it was done as Secretary of the Territory or as Acting Governor, it was done with an intense loyalty both to Hawaii and America. In this Atkinson has connected his name by service with a distinct epoch in Hawailan history and a distinct policy looking to the highest development of

In personal popularity, Atkinson has seldom, if ever, been surpassed.

# DIED.

parents, Punchbowl and Emma streets, Wednesday afternoon, Aulowing a slight cut in the foot while bathing at Walkiki, B. K. Kauakahialii, aged 18 years. The funeral took place Thursday. The interment was at Manana. The deceased was for many years a newsboy and a ball player on the Star Baseball Team.

NOT A DOUBTFUL QUESTION.

There is no doubt in the minds of those who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy the result was afterwards contested as to its curretive powers. For a pain in the stomach, diarrhoea or dysentery, trying to get his money back and the hospital. The man had had his head

Three land exchanges of considerable interest were completed and approved amount of the defalcation of Vivian yesterday. One of them was the ex-Richardson, formerly a clerk in the change of the Makiki land for a site water department, who was convicted for the College of Agriculture in Manoa valley, elsewhere spoken of in de-

on the Volcano road, Hawaii, for a strip of about the same area at 29 miles, with Charles Furneaux. And the third was the exchange of a piece have recently been sold.

In the construction of the Volcano Upon the conclusion of the hearing to get a better grade, the line of the old trail was not followed, for a distance of about a half a mile. This left a little strip about half a mile long and three hundred feet wide belonging to the Shipman ranch between the road, on its upper side, and the government land. At 14 miles, a similar diversion left a strip of government land between the 1cad on its lower side and Charles Furneaux's land.

> Lately applications have been made for land at 29 miles for mourtain residences. In order to enable such mountain residence tracts to connect with tions for the building up of the one, the Volcano road, it was desirable to acquire the narrow strip belonging to the Shipman ranch. This was done by exchanging the similar strip at 14 that of commerce. The principle that miles with Furneaux, who had meanwhile acquired the Shipman rights, the exchange bringing Furneaux's land up to the road at 14 miles. The third exchange was of a piece

of tideland at the Peninsula, between the land of Weloka and the Weloka of nations, sweet as it is it has caused fishpond, adjoining the property of H. much bitterness. Miss C. Low, Miss Mona Hind, W. J. all probability, come from Washington E. Cooper, W. F. Frear and Albert Waterhouse, for a right of way to the Alewa Heights lots over either the Rooke Estate, or of S. M. Ballou. Cooper, Frear and Waterhouse have a rights. They propose, it is understood, cannot be overestimated. to do some dredging and filling that

These exchanges are all matters that tiation for some time, and come under Wall, W. J. White, Mrs. W. J. White, any other Hawalian loan had ever been the head of unfinished business. They have been completed now as a part of the process of finishing up all business of the administration before a new administration comes in.

# **FINAL PLANS**

(Continued from Page One.) would be followed in the building of which have already been published in the Advertiser. After a short dishandle the matter it was decided to cable Crowninshield at once to send the complete plans as soon as it was possible to forward them. The matter unanimously agreed on this course, instructing the secretary to forward the message at once.

From this, the committee turned to the matter of raising funds. C. T. Wilder made his report, showing that cular letters which had been sent out, that he believed that personal solicommittee that this plan should be folof prominent men had become very they were simply waiting for the to get the money together at once, and from now on will pursue an active campaign, enlisting the services work a success, It is probable that Crowninshield has

already partially completed the final plans of the yacht and the committee does not anticipate a delay of more than a few weeks before they will be in this city. In the meantime the plans gust 7, 1907, of blood poisoning fol- which have already been received are complete enough to allow Lyle and Sorenson, who will build the schooner, to go ahead with the work at once.

# BASEBALL BET.

Chang Fook lost \$77 on a bet on the game between the Chinese Alohas and the Chinese Athletics and is trying to get it back from Leong Yau. The money was paid over by the stakeholder on the umpire's decision, but and the decision overthrown. Fook is District Court said he ought to have and land land row.

# STRAUS PLEDGES HELPING HAND

(Continued from Page Four.)

than can be found in any similar community on the face of the earth. I think this accounts for the welfare and prosperity to which Mr. Thurston has "I regard these islands as of the

highest importance, not only to the inhabitants of them but also to us. I am wonderfully impressed with the The second was the exchange of a breadth and toleration of spirit that strip of government land at 14 miles pervades here. Here nations meet as tell the purchase of a school site on hear that you have drunkenness here, of tide land at the Peninsula for a are as free to quarrel as any, but you sions for Chinese boys and youths and fifty-foot right of way for a street do not seem to indulge in this priv- a class in drilling and military tactics to reach the Alewa Heights lots which lege. You are teaching not only us You are teaching us how Orientals and other nations can come and live toroad, years ago, at 29 miles, in order gether in harmony, without in any way jarring each other's sensibility. This is indeed a most valuable lesson.

"To take a larger view of things, because here with the blue ocean all around you can take a larger view than we can with our skyscrapers shutting us in, you can see that the world has passed through its several periods in modern times. With the Reformation, the Zeitgeist or national spirit was religious or ecclesiastical and conflict between the nations were on ecclesiastical questions, culminating in the Thirty Years' war, its wounds being bound up in 1648 by the treaty of Westphalia. Then another spirit, spirit with efforts to crush other naculminating in the ferocious fury of the Napoleonic period. With the struggle for independence of America a new spirit was ushered in-do not startbrought about the War of Independence, the principle underlying it, was commerce, a question of taxation. The final stages that brought it on was the tax on tea and lastly the sugar act. I need not tell you that sugar has played an important part in the history of nations and in the conquest

'So we are in the commercial age and I think it is a fortunate age. Commerce is a peace preserver and based on friendship, mutuality and fair property of the Andrews Estate, the dealings and its basic rock is equity and justice. It gives as much as it receives. We trade with friends, not enemies, and you here, upon these premises. right of way over the tide lands in beautiful litle islands, are our outpost question together with the right of of goodwill and peace and the harmonaccretion, so that it could be sold to lous example you have set in cementan object lesson, the value of which

"I can well see, and doubtless in time will fill up some of this tide land and we will all realize it, that in shaping nies pertaining to the retirement of ate the same time give better landing the mainland we must see how those of Chief Justice Hartwell and Associate Francisco, Agust 7, 8:10 a. m.—For practically the whole work of floating at the same time give better landing the mainland we must see how those laws will fit conditions for which we laws of a million dollars falling on and approach for boats and to their laws will fit conditions for which we law will fit conditions for which we will fit condition with the whole work of floating and approach for boats and to their law will fit condition with the whole work of floating and approach for boats and to their law will fit conditions for which we will fit condition with the whole work of floating and approach for boats and to their law will fit conditions for which we will fit condition with the whole work of floating and approach for boats and to their law will fit condition with the whole work of floating and approach for boats and to their law will be a successful with the whole will be a successful with the whole will be a successful with the whole will be a su sessions distant from our mainland and, ing. have been under consideration or nogo- very wisest course of having your as I have said, you are following the conditions understood by those who shape the laws.

"I have been induced to step a little way out of my department through the invitation and urgent insistence of Admiral Very and went to Pearl Harbor. I am not a naval man but I can see the value to commerce of having Pearl Harbor fitted so you can hide away all the naval vessels coming here and make room in your other harbor for the vessels of commerce. I am not drive. opposed to a strong navy. I believe in a strong navy, which is the best guarantee of a long and a lasting the yacht, all the salient features of peace and I do not know a better place to keep a large share of that navy than in your beautiful Pearl Harbor and I feel convinced that Pearl cussion on the best way in which to Harbor will be thoroughly equipped for the purpose which I have stated.

"I am pleased to learn from Mr. Thurston's remarks that so far as the commercial interests of the islands are concerned you are able to take care of was put to a vote and the committee them yourselves. It is certainly very reassuring to know that your problems can be met, because I had heard that your future was viewed with some misgivings. It has occurred to me that, with agriculture, in all it forms one of the surest bases of prosperity, that if a supplementary industrial occupation could be worked up you would have two strings to your bow, and one greatly helping the other. Of course, though only a part of the money it is easier to state these things than necessary had been raised. He stated to bring them about, especially for such a newcomer as I am, but I was in your wonderful museum and saw citation would have a much better that there was or had been a wonderful effect than the letters which have been capacity among the native population sent out and it was decided by the for hand weaving. Such is a capacity shared by many of the Oriental nations, and it occurred to me what a lowed. It was stated that a number splendid industry could be created here if the Turkish carpet industry were inmuch interested in the plans and that grafted. I think that it would be a very easy matter to do it. The product is a staple article, in great demand and proper time to make large donations. with no danger of ever glutting the The committee felt that, with the or- market, as it is all hand work and dering of the final plans, it was time there is no machine competition to fear. I mentioned this matter to Judge Dole, telling him that I thought the industry would develop a peculiar phase here that would produce a Haof all those who can help to make the wailan carpet, with some of the colors that environment would suggest. have this thought and give it for what it is worth.

"I shall go home with a great deal of information regarding the conditions here. I even place a greater value upon the importance of Hawaii to the mainland than you, in your modesty, put upon it, and I feel most hopeful for your future. But again I say that what is needed most is not only frequent, but elegant, accommodations by steamship between the mainland and here. Your country is beautiful, but even if we of the mainland can get passage here we want to know that we can get away. I thank you, gentlemen, very much and wish you every success, and I shall do everything within my power to aid you in gaining that success."

The patrol wagon was sent down to to convey a wounded Japanese to the split open with a bottle, receiving the

## LOCAL BREVITIES.

(From Wednesday's Advertiser.) Marshal E. R. Hendry left for Mauf by the Kinau on short notice to look

after a Federal offender. Proceeds from sales of public lands on the Island of Hawaii for July were \$14,000, the largest on record for a month.

Judge C. C. Conradt of Pukoo, Molokal, who came to town to testify in the Loch Garve salvage case, returned home last night.

The following committee has been appointed to take charge of the entertainment of the Maul Polo Club: George Potter, Harold Dillingham, Harold Castle and G. P. Wilder.

The Bow Worg society have complebrothers in the closest amity and the old Kaumakapili church grounds friendship. I see no street brawls, I and will go ahead at once with their see no drunkenness. I am sorry to plan of putting up a two story school building on it. The plans of the society but I have seen no quarrels. And you are to have both day and night seswill also be formed. For the teaching but all nations a lesson in toleration. of this class a Japanese ex-army officer will be employed.

(From Thursday's Adventiser.) George C. Sea, deputy high sheriff, is again confined by illness to his room

at the Young. E. A. Mott-Smith, the likely coming Secretary of Hawaii, was in conference with the present and future Governors

yesterday. A delegation of Japanese fishermer from Hilo has waited on Consul Saito to complain of the obstruction of a

public highway at Waiakea. Interviews with Governor-elect Frear and E. A. Mott-Smith yesterday practically confirmed the Advertiser's surmise of that morning that Mr. Mott-Smith would be the next Secretary of that of conquest, came, a dominating the Territory. "I know of no one who could fill the position more satisfactorily than Mr. Mott-Smith," is one remark made by Judge Frear.

It was reported yesterday that a cablegram had been received from the Assistant Secretary of the Treasury at Washington, directing that the deed for the Mahuka site should not include the land for the extension of Bishop street. This would mean that the land for the street should be conveyed directly to Ewa. the Territory, saving the trouble of a reconveyance by the United States.

The Koloa Wine Co. is the only appliant for a wholesale liquor license on Kauai denied its request. It is believed the reason is that the company is controlled by C. W. Spitz, who is interested in two of the licenses grant-Among the conditions reported to be exacted of the licensees is that they shall do no soliciting of trade but sell only to voluntary customers on the

> turned yesterday morning from Maui whither he went on official business. Charles Gay, the king of Lanai, arrived yesterday morning by the Claudine. He is preparing for a great goat

Fred Tollefson of Moanul, Molokat, was successfully operated on for appendicitis by Drs. Hodgins and Judd. He is at Miss Johnson's sanatorium. A new scoop has been installed in the dredger at work on the Brewer's

wharf slip, the old one being the worse for contact with the hard coral. More blasting will have to be done. the coral being very hard. About a thousand dollars of repair work is being put on the old High

School building. In places the steps and lanais have rotted away. Repairs are being made wherever needed on other school buildings throughout the Territory. Deputy Collector of Customs Baird

at Hilo is said to be anxious to be relieved of the duties of United States Shipping Commissioner at that port, duties which are imposed on collectors of ports where there are no shipping commissioners. Secretary Straus has been appealed to, it is said, though collectors are under the Treasury Department.

Summons has been sent from the Maul Circuit Court to the High Sheriff for service in the divorce proceeding of Thomas G. Holstein vs. Bernice K. Holstein. Service has been made by the High Sheriff. Holstein claims that for a year previous to their separation his wife was cruel to him and displayed toward him an uncontrollable hatred and dislike, and that she struck, beat and bruised him.

## TEST FOUND FOR TYPHOID FEVER

PARIS, July 27 .- Professor Chantemesse, one of the leading French santtarians, has made an important discovery of the means of diagnosing typhold fever in its incipient stages. His methods are similar to those of Wolff, Eisner and Pikert of Vienna in their diagnosis of tuberculosis, consisting of inoculation of a small portion of the skin with tuberculin. If the person is the victim of the disease. a characteristic cutaneous reaction takes place. In a healthy person there is no such reaction.

In a similar manner, if the dose of a fiftieth part of a milligram of Professor Chantemesse's specially prepared powdered typhic toxine is dissolved in a drop of water and applied under the eyelid, an ophthalmic diagnosis of typhoid fever can be made, if Iwilel last night about eight o'clock the disease exists. The experiment is not dangerous.
